ABSTRACT

This research guide presents a selected bibliography of federal government publications about the Acquired Immune Deficiency Syndrome (AIDS). These documents are listed in five categories: (1) Bibliographies (7); (2) Congressional Publications (69 hearings and reports); (3) Executive Branch Publications (43 reports); (4) Federal Government Periodicals (34 articles); and (5) Government Statistical Publications (10 reports). Agencies producing the majority of these publications include the Centers for Disease Control; the Department of Health and Human Services; the National Cancer Institute; the National Center for Health Services Research and Health Care Technology Assessment; the National Center for Health Statistics; the National Institutes of Health, Justice, Mental Health, and Alcohol Abuse and Alcoholism; the National Institute on Drug Abuse; the National Library of Medicine; the Public Health Service; various committees of the House of Representatives and the Senate; and the Office of Technology Assessment. The topics covered include AIDS and children; the federal response to the AIDS epidemic; AIDS education, care, and drug development; condom advertising; the protection of health care workers against the AIDS and Hepatitis B viruses; operational aspects of AIDS research; intravenous drug use; the impact of AIDS on the Black and Hispanic communities; AIDS testing; medical testing and health insurance; AIDS in the military; and AIDS in prisons and correctional facilities. Each entry includes the government agency responsible for the report, the title, publication date, and the SuDocs (Superintendent of Documents) call number. (MAB)
